

EUCALYPTUS RADIATA - 15 ML

Eucalyptus radiata is cooling, refreshing, and energizing. Lighter in smell than Eucalyptus globulus, it has many of the same supportive properties. Because it is relatively gentle and nonirritating, it is the preferred choice for children. This variety is one of the most versatile of the eucalyptus oils and is suitable for topical use, diffusing, and even direct inhalation. It has long been an ingredient in some of Young Living's most popular blends.

How to use: For aromatic use.

Possible skin sensitivity. If pregnant or under a doctor's care, consult your physician.
